PDS.

During the three years I spent liquidating the inventory (some of which you called junk) in those three years I paid myself to live perhaps \$60,000 I have to eat. I also had expenses of perhaps \$15,000 to run the business. Total \$75,000 - did you think I have no expenses. I also ~~know~~ as you know given 15% to the sellers this would also account for perhaps 10 to \$12,000 wouldn't it - did you ever consider that to sell the jewelry there is expenses did you ever calculate this - Did you think there are no expenses.

Good Bye
